

ON-SITE DISCHARGE APPROVAL FORM, 4/95
FILE: INDUSTRY, WEHR, SPECIAL DISCHARGE
NAME: DWIGHT LEIGH

June 13, 1995

Mr. Dwight Leigh
Environmental Works, Inc.
1630 W. Elfindale
Springfield, Mo. 65807

Subject: Wehr, Wehr, Johnson & Bridgeforth, Inc.-733 N. West
Bypass

Dear Mr Leigh:

We have reviewed your application dated 6/8/95 requesting approval to discharge 55 gallons of contaminated rainwater containing 30 pounds of stabilized sodium dithionite to the City POTW for treatment. This contaminated rainwater is from a waste abandoned by a former tenant in a rental property owned by Wehr, Wehr, Johnson & Bridgeforth, Inc. at 733 N. West Bypass.

Based on the MSDS and information submitted, it appears that this wastewater is acceptable for discharge pursuant to the City's Wastewater Regulations and is approved for discharge into a clean-out on the private building sewer serving 733 N. West Bypass on site. The discharge into the sewer must be controlled at a rate that will not surcharge the sewer lines in that area. This approval is valid for only 10 days from the date of this letter. Within 24 hours prior to anticipated discharge, call this office indicating time and location of such discharge. Approval is subject to change due to certain weather conditions and treatment plant operational situations.

You must be certain the wastewater is discharged into the sanitary sewer only. This letter does not authorize any discharge to a

separate storm sewer, or to any watercourse, as any such discharge would be in violation of local, state, and federal laws.

This discharge has been approved based upon the information you provided, and is subject to the conditions stated above. This approval may be revoked by the City at any time if any of the information is found to be incorrect, or if the conditions of this approval are violated. Also, if the discharge causes any operational or maintenance problem within the City's collection or treatment system, or results in violations of any conditions of the City's NPDES permit, Environmental Works, Inc. and/or Wehr, Wehr, Johnson & Bridgeforth, Inc. will be considered responsible for damages.

If you have any questions, please give me a call at 864-1487.

Sincerely yours,

J. Randall Lyman
Sewer Surveillance & Billing Supervisor
